

PianteTappazzantiCoprisuolo

SAINI NATALE

Our company is located in the heart of Brianza, close to Milan and has always been specialized in the production of ground cover plants in large quantities.

All our varieties of plants are grown in pots and boxes, easily stackable and transportable on pallets and/or trucks.

Delivery can be carried out directly on-site at the customer, or it can also be entrusted to our carriers or carriers/ couriers.

# Groundcover plants

Groundcover plants are perfect in creating great-looking areas, even in difficult areas, from steep slopes or with workplace problems.

The planting of groundcover plants also offers the advantage of a low maintenance and a less fast growth in width, which results in the development of a real plant carpet, which prevents unwanted fouling of weeds.

# Groundcover plants in clod

Our company in recent years has specialized in the production of **groundcover plants in clod**, an extremely innovative product that allows you to have many benefits with **immediate effect**.

It is in fact clods of different varieties, **ready to use, easy planting**: the shutter mode is in fact the same as practice for the lawn in sod.

To the many advantages offered by the groundcover plants in general, you can add a **substantial saving in terms of time**, in addition to the guarantee of having immediately a ready effect, **reducing maintenance to a minimum** and preventing significantly the growth of weeds.
